

Max Levine

max.levine2@mail.mcgill.ca — lord-xam.github.io/maxlevine — github.com/Lord-Xam

2nd year undergrad in Joint Honours Physics and Computer Science at McGill. Strong student (3.97 GPA) with a passion for learning. Looking to apply my skills and gain meaningful work/research experience.

Experience

Summer Research Assistant at McGill University May 2026 - August 2026

- Supervised by Prof. Victoria Kaspi and Maxwell Fine PhD. Worked within the CHIME/FRB collaboration
- Used statistical modelling software to fit pulsar data and analyze results
- Developed automated pipelines in Python and Bash

Peer Tutor at Dawson College September 2024 - May 2025

- Tutored many students in math and physics courses
- Explained confusing concepts clearly, helped peers improve their problem solving skills

PJC Jean Coutu July 2023 - October 2024

- Customer service, managing inventory, cleaning, and other miscellaneous tasks

IGA Kraft Beaumont June 2022 - February 2023

- Cleaned the workstations, managed inventory, and packaged food for fish and meat departments

Extracurriculars

McGill Summer Research Showcase 2026

Gave a 5 minute talk about my research

McGameJam 2026

Developed a game in Java using native GUI toolkits (awt and swing)

McGill Physics Hackathon 2023, 2024, and 2026

Programmed games in Unity (C#), Python, and Javascript. Won the entropy category prize in 2026.

UntitledGameJame104 2025

Programmed a game in the Godot game engine (scripting language similar to Python)

International Day of Mathematics presentation 2025

Gave a presentation on Bezout's identity at Dawson's International Math Day (Pi Day) event.

Personal Projects

Home Server

Maintain personal home Linux (Ubuntu) headless server with docker containers for personal VPN, DNS filter, media server, backups, and more

Physics Simulator

Simple C++ program that simulates gravity in 2D

Unity Game

Arcade style game built in Unity (C#)

Education

BSc. in Physics & Computer Science McGill University (2025 - present)

DEC in Pure & Applied Science Dawson College (2023 - 2025)

High School Diploma Villa Maria High School (2018-2023)

Skills and Competencies

- Python, Java, Object Oriented Programming, Bash
- Linux and Windows environments
- Git, Github
- Measurement and analysis of lab data

Languages

- Fluent in English
- Can read, write and speak French well
